

Dome Management Inc. has steadily grown by maintaining a clear focus on its philosophy, which is to provide to clients a superior product while maintaining the integrity of the design, budget and schedule. The client remains the centre of our attention throughout the entire project with continued communication and collaboration.

Dome Management Inc. will provide the client with a comprehensive service throughout the project. Dome will assume a project from its inception through to final construction and all phases in between which include design, budget, schedule and construction, allowing the client to concentrate on their own business matters.

The experience in both management and design of projects from small to large scales covers a broad spectrum of building types. This is a cross section example of projects undertaken by Dome Management.

Caisse Populaire de Tecumseh
\$150,000

This complete interior renovation was designed by Archon Architect and managed by Dome Management. The new home of the Caisse Populaire is in this free standing building of approximately 3,800 sq.ft. in the St.Clair Beach Shopping Centre.

New Residence
\$1.3M

This newly constructed 4000 sq. ft, single family residence located in an affluent neighbourhood in Windsor. Many design issues were solved in collaboration with the owner and sub trade.

Windsor Chapel Funeral Home
\$650,000

This complete exterior renovation was a needed face lift for the established Windsor business. This project was a great challenge, since the facility operated at 100% during the entire construction period.
